

5. Data backup :

This software has a manual backup system which enables us to take a backup of our data on a regular interval. This can save a lots of our valuable data and time just incase of natural disasters or accidents occurs. We can take a backup on the extra hard drive or on the CD writers for future use.

6. Support

Since it's been more than eighteen month, continuous research and development on this software, any kind of support via telephone, email will be provide by Magnus Consulting Group Pvt to different users, which is very essential. Any kinds of software updates and debugging will also be done by them.

7. The Magnus Consulting Group would look after it properly when it is practiced in the SFCL and comment would need to be adjusted accordingly.

We look forward for the success of the Saral Bitta[®] (Simple Finance[®]) software.

Best regards
